THE NEXT RC ACES MEETING IS ON

***** September 5, 2024 *****

At the Airfield—Summer 2024

Lots of flying at the airfield lately—must be something about summer weather and relatively low wind speeds.

Bud was out flying his “Ugly Stik” the other day. I always thought that was a stupid name for a plane, because in reality it flies beautifully.

There's a reason why so many of this type of R/C planes have been purchased and flown over the years.

I've seen both fuel-powered and electric-powered Stiks in the past, and pilots have expressed few complaints. The planes come in a variety of

sizes and colors. But sometimes you see them show up at auctions only because pilots are looking for something new.

Along with the good comes the bad—bullet holes in our new club sign.

Maybe it's time to invest in that game camera we discussed last year.

NH Flying Tigers—Fly-in

July 27, 2024

Ken's Telemaster, Tiger Moth, and Cessna 182 on the flightline.

A foamy Waco biplane and balsa trainer waiting their turn.

A "standoff scale" Fokker D VII

Helicopters and bombers and gliders, oh my!

Nice flying E-Flite T28 Trojan with 2 meter wingspan.

A great variety of models on-hand.
